For your safety

Target group

This document is intended for all users of the Geberit DuoFresh inserts for Geberit DuoFresh sticks.

Children and adults who are not familiar with its use should be given appropriate instructions and may need to be supervised.

Intended use

The Geberit DuoFresh stick insert is intended for inserting Geberit DuoFresh sticks into the cistern.

Operation, care and maintenance work may only be performed by the operator or user as described in this user manual.

Use for any other purpose is deemed improper. Geberit accepts no liability for the consequences of improper use.

Product description

Suitable Geberit DuoFresh sticks can be inserted into the cistern via a drawer.

The actuator plate featured in these instructions corresponds to the Sigma20 type and also applies analogously for other compatible types.

Operation

Inserting a Geberit DuoFresh stick

Prerequisite

- The Geberit DuoFresh stick colours the water blue. Only insert a new stick when you notice a permanent decline in the colouring effect.

Only use original Geberit DuoFresh sticks. These can be ordered from the relevant Geberit sales company.

- 1 Gently pull the actuator plate forwards (1) and swivel it to the right (2).

- 2** Pull out the drawer with the filter.

The film on the Geberit DuoFresh stick is water-soluble and does not need to be removed.

- 3** Insert the Geberit DuoFresh stick into the holder.

- 4** Push in the drawer until the holder noticeably locks into place.

- ✓ The Geberit DuoFresh stick detaches from the holder and falls into the cistern.

- 5** Swivel the actuator plate to the left (1) and gently push it backwards (2) until it noticeably locks into place.

Para su seguridad

Grupo objetivo

Este documento va dirigido a todos los usuarios de los alojamientos Geberit DuoFresh para Geberit DuoFresh sticks.

Los niños y los adultos que no tengan experiencia con la utilización del dispositivo deberán ser instruidos y, dado el caso, supervisados.

Uso previsto

El alojamiento para Geberit DuoFresh stick de cisterna ha sido concebido para la introducción de Geberit DuoFresh sticks en la cisterna.

El manejo, cuidado y mantenimiento solo pueden ser realizados por el propietario o usuario en la medida que están descritos en las presentes instrucciones.

Cualquier otra aplicación será considerada como un uso no conforme a lo previsto. Geberit no se responsabiliza de las consecuencias de una aplicación no prevista.

Descripción del producto

Mediante un cajón se pueden introducir Geberit DuoFresh sticks adecuados en la cisterna.

El pulsador descrito en estas instrucciones es el tipo Sigma20 y debe tomarse en representación de todos los tipos similares.

Manejo

Introducción de Geberit Duo-Fresh stick

Prerrequisito

- El Geberit DuoFresh stick tiñe el agua de color azul. Sustituya el Geberit Duo-Fresh stick cuando note que el efecto del color se haya debilitado notablemente.

Únicamente emplee Geberit DuoFresh sticks originales. Puede solicitar las piezas originales a la empresa distribuidora autorizada de Geberit.

- 1 Arrastre el pulsador ligeramente hacia delante (1) y gírelo a la derecha (2).

2 Extraiga el cajón con el filtro.

La lámina del Geberit DuoFresh stick se disuelve en el agua y no hace falta retirarla.

3 Introduzca el Geberit DuoFresh stick en el soporte.

- 4 Inserte el cajón hasta que sienta que el soporte ha encajado.

- ✓ El Geberit DuoFresh stick se suelta del soporte y cae a la cisterna.

- 5 Gire el pulsador a la izquierda (1) y empújelo ligeramente hacia atrás (2) hasta que sienta que el pulsador ha encajado.

Jūsu drošībai

Mērķa grupa

Šis dokuments ir paredzēts visām personām, kas lieto Geberit DuoFresh stienīšiem paredzētos Geberit DuoFresh ieliktnus.

Apmāciet bērnus un pieaugušos, kam nav ierīces lietošanas pieredzes, nepieciešamības gadījumā nodrošinot uzraudzību.

Lietošana saskaņā ar noteikumiem

Skalošanas kastes stienīša ieliktnis ir paredzēts Geberit DuoFresh stienīšu ievietošanai skalošanas kastē.

Īpašnieks vai lietotājs drīkst veikt apkalpošanu, kopšanu un uzturēšanu kārtībā tikai šajā instrukcijā paredzētajā apmērā.

Jebkāda citāda lietošana neatbilst noteikumiem. Geberit neuzņemas atbildību par sekām, ko ir izraisījusi noteikumiem neatbilstīga lietošana.

Izstrādājuma apraksts

Izmantojot atvilktni, skalošanas kastē var ievietot piemērotus Geberit DuoFresh stienīšus.

Šajā instrukcijā parādītais noskalošanas panelis atbilst tipam Sigma20 un ir attiecināms arī uz citiem saderīgiem tipiem.

Apkalpošana

Geberit DuoFresh stienīša ievietošana

Priekšnoteikums

- Geberit DuoFresh stienītis iekrāso ūdeni zilā krāsā. Ievietojiet jaunu stienīti tikai tad, ja krāsas efekts ilgstoši ir samazināts.

Ievietojiet tikai oriģinālos Geberit DuoFresh stienīšus. Tos iespējams pasūtīt pie attiecīgā Geberit izplatītāja.

- 1 Nedaudz pavelciet skalošanas paneli uz priekšu (1) un virziet uz labo pusi (2).

2 Izvelciet atvilktni ar filtru.

Geberit DuoFresh stienīša plēve šķīst ūdenī, un tā nav jānoņem.

3 Ievietojiet Geberit DuoFresh stienīti turētājā.

- 4** Iebīdiet atvilktni, līdz turētājs jūtami nofiksējas.

- ✓ Geberit DuoFresh stienītis tiek atbrīvots no turētāja un iekrīt skalošanas kastē.

- 5** Pavirziet skalošanas paneli (1) uz kreiso pusi un viegli spiediet uz aizmuguri (2), līdz tas jūtami nofiksējas.
